Re: Masonry Restoration and Window Repair  
Notre Dame High School

Attn: Louisa Capasso

Dear Ms. Capasso:

I would like you to know what a positive experience it was to work with you on the masonry restoration of Notre Dame High School in West Haven, Connecticut. In any school project it is critical to complete construction before the academic year begins. Your company performed the work in a timely fashion, completing everything significantly ahead of schedule. Your personnel are knowledgeable, experienced, and responsive to unique field conditions, and the quality of craftsmanship throughout the project was excellent. In addition, the work areas were always kept clean and orderly. All of the comments I have heard about the restoration work, whether from school administrators, teachers, or board members, have been universally positive.

Since working with your company, I have recommended you to clients and general contractors.

Sincerely,

Joan O'Riordan, AIA
